

TEXTBOOK OF SMALL ANIMAL SURGERY, 2 Vols.

Autor:	Slatter	
ISBN:	9780721686073	
Páginas:	2896	
Año:	2003	
Edición:	0	
Idioma:	Ingles	
Disponible:	De 2 a 3 Semanas	
Precio:	174.60 165.87	Iva no incluido

CONTENTS:

Section 1 Surgical Biology

1. Shock: Pathophysiology, Diagnosis, and Treatment
2. Fluids, Electrolyte, and Acid-Base Therapy
3. Hemostasis, Surgical Bleeding, and Transfusion
4. Wound Repair and Specific Response to Injury
5. Nutritional Support of Hospitalized Cats and Dogs
6. Surgical Wound Infection and the Use of Antimicrobials
7. Organ Transplantation in Clinical Veterinary Practice
8. Trauma: Epidemiology and Mechanisms
9. Biomaterials and Surgical Implants

Section 2 Surgical Methods

10. Principles of Surgical Asepsis
11. Sterilization
12. Assessment and Preparation of the Surgical Patient and the Operating Team
13. Surgical Facilities and Equipment
14. Surgical Instruments
15. Basic Operative Techniques
16. Cryosurgery
17. Surgical Lasers
18. Suture Materials, Tissue Adhesives, Staplers, and Ligating Clips
19. Bandages and Drains

Section 3 Skin and Adnexa

20. The Integument
21. Superficial Skin Wounds
22. Principles of Plastic and Reconstructive Surgery
23. Pedicle Grafts
24. Skin Grafts
25. Surgical Treatment of Specific Skin Disorders
26. Burns: Thermal, Electrical, Chemical, and Cold Injuries

Section 4 Body Cavities and Hernias

27. Thoracic Wall
28. Pleura and Pleural Space
29. Abdominal Wall
30. Peritoneum and Peritoneal Cavity
31. Hernias
32. Abdominal Hernias
33. Diaphragmatic, Pericardial, and Hiatal Hernia
34. Perineal Hernia

Section 5 Gastrointestinal System

35. Functional Anatomy of the Digestive System
36. Physiology of the Digestive System
37. Pathophysiology of Gastrointestinal Disease
38. Tongue, Lips, Cheeks, Pharynx, and Salivary Glands
39. Esophagus
40. Stomach
41. Small Intestines
42. Large Intestine
43. Rectum and Anus
44. Liver and Biliary System
45. Portosystemic Shunts and Other Hepatic Vascular Anomalies

46. Surgery of the Exocrine Pancreas

Section 6 Respiratory System

47. Functional Anatomy

48. Pathophysiology of the Respiratory System

49. Evaluation of the Surgical Respiratory Patient

50. Brachycephalic Syndrome

51. Cleft Palate

52. Nasal Passages, Sinus, and Palate

53. Laryngeal Paralysis and Devocalization

54. Laryngeal Trauma and Stenosis

55. Diseases of the Trachea and Bronchi

56. Lungs

57. Care of Respiratory Patients

Section 7 Cardiovascular System

58. Surgical Anatomy of the Heart

59. Pathophysiology of Heart Failure

60. Interventional Catheterization Procedures

61. Pacemaker Therapy

62. Inflow Occlusion and Cardiopulmonary Bypass

63. Cardiac Surgery

64. Surgery of the Pericardium

65. Principles of Vascular Surgery

66. Cardiopulmonary Supportive Care

Section 8 Hemolymphatic System

67. Hematopoiesis

68. Hematopoietic Dysfunction

69. Bone Marrow

70. Spleen

71. Lymphatics and Lymph Nodes

72. The Tonsils

73. The Thymus

Section 9 Nervous System

74. Neurological Examination and Localization

75. Electrodiagnosis

76. Neuroradiology

77. Pathogenesis of Diseases of the Central Nervous System

78. Surgical Approaches in Central Nervous System Surgery

79. Atlantoaxial Conditions and Wobbler Syndrome

80. Intervertebral Disk Disease

81. Miscellaneous Spinal Conditions and Peripheral Nerve Injuries

82. Lumbosacral Syndrome

83. Vertebral Fractures and Luxations

84. Intracranial Surgery

85. Neuro-oncological Surgery of the Vertebral Column and Spinal Cord

Section 10 Eye and Adnexa

86. Principles of Ophthalmic Surgery

87. Surgery of the Eyelids

88. Conjunctiva

89. The Nasolacrimal System

90. Third Eyelid

91. Cornea and Sclera

92. Iris and Ciliary Body

93. Lens

94. Vitreous and Retina

95. Orbit

96. Glaucoma

97. Ophthalmic Emergencies

Section 11 Reproductive System

98. Ovary and Uterus

99. Vagina, Vestibule, and Vulva

100. Normal and Abnormal Parturition

101. Cesarean Section

102. Testes and Epididymis

103. Penis, Prepuce, and Scrotum

104. Prostate

Section 12 Urinary System

105. Development of the Urinary System

106. Physiology of the Urinary Tract

107. Pathophysiology and Therapeutics of Urinary Tract Diseases

108. Principles of Urinary Tract Surgery

109. Kidneys

110. Ureters
111. Urinary Bladder
112. The Urethra
113. Lower Urinary Tract Diseases
114. Medical Treatment of Urolithiasis
115. Prevention of Acute Renal Failure

Section 13 Endocrine System

116. Hypophysectomy
117. Adrenalectomy
118. Thyroid Gland
119. Parathyroid Gland
120. Endocrine Pancreas

Section 14 Ear

121. Pinna
122. External Ear Canal
123. Middle Ear
124. Clinical Evaluation of Auditory Function

Section 15 Musculoskeletal System

125. Connective Tissue of the Musculoskeletal System
126. Fracture Biology and Biomechanics
127. Treatment of Open Fractures
128. Internal Fracture Fixation
129. External Skeletal Fixation
130. External Coaptation
131. Delayed Unions, Nonunions, and Malunions
132. Orthopedic Infections
133. Bone Grafts
134. Scapula
135. Luxation of the Scapulohumeral Joint
136. Fractures of the Humerus
137. Elbow Luxation
138. Canine Elbow Dysplasia
139. Fractures of the Radius and Ulna
140. Carpus and Digits
141. Fractures of the Pelvis
142. Coxofemoral Luxations
143. Hip Dysplasia: Pathogenesis
144. Canine Hip Dysplasia: Diagnosis and Nonsurgical Treatment
145. Surgical Treatment of Canine Hip Dysplasia
146. Fractures of the Femur
147. Stifle Joint
148. Tibial Plateau Leveling Osteotomy
149. Fractures of the Tibia and Fibula
150. The Tarsus and Metatarsus
151. Arthrodesis
152. Amputations
153. Maxillofacial Fractures
154. Osteoarthritis
155. Immune-Mediated Polyarthritis
156. Miscellaneous Orthopaedic Disorders
157. Perthes' Disease
158. Muscle and Tendon Disorders
159. Limb-Sparing Surgery for Dogs with Bone Neoplasia
160. Small Animal Arthroscopy

Section 16 Oncology

161. Biology of Neoplastic Disease
162. Diagnosis of Neoplasia
163. Surgical Therapy
164. Veterinary Radiation Therapy
165. Chemotherapy of Neoplasia
166. Skin and Subcutis
167. Alimentary Tract, Liver, and Pancreas
168. Cardiac and Pericardial Neoplasia
169. Hematopoietic Neoplasia
170. Tumors Involving the Central and Peripheral Nervous System
171. Eye and Orbit
172. Reproductive Oncology
173. Urinary System
174. Musculoskeletal System
175. Respiratory Tract Neoplasia
176. Tumors of the Mandible, Maxilla, and Calvarium

Section 17 Anesthesia

- 177. Pain Management for the Surgical Patient
- 178. Patient Monitoring
- 179. Operating Room Emergencies
- 180. Elective Soft Tissue and Orthopaedic Procedures
- 181. Trauma or Shock Patient
- 182. Urinary System
- 183. Anesthesia for the Patient with Central Nervous System or Ophthalmic Disease
- 184. Respiratory System
- 185. Cardiovascular System
- 186. Hepatic and Gastrointestinal Surgery
- 187. Endocrine System
- 188. Anesthesia for the Pediatric and Geriatric Patient
- 189. Cesarean Section
- 190. Triage and Initial Support of the Trauma Patient
- 191. Postoperative Patient Care
- 192. Cardiopulmonary Resuscitation
- 193. Positive-Pressure Ventilation

Section 18 Dentistry

- 194. Applied Oral Anatomy and Histology
- 195. Oral Pathology
- 196. Periodontal and Oral Inflammatory Disease
- 197. Periodontics
- 198. Endodontics
- 199. Restorative Dentistry
- 200. Orthodontics
- 201. Exodontics

Appendix: Normal Laboratory Values for the Dog and Cat
Index
