Disponible:	De 7 a 10 Días		
Precio:	184.05	174.85	Iva no incluido

DESCRIPTION:

As use of laparoscopy by equine surgeons continues to expand and replace more invasive evaluation techniques, a definitive, detailed resource on laparoscopy is essential. Equine Diagnostic and Surgical Laparoscopy offers a well-illustrated, step-by-step approach to specific laparoscopic procedures.

An in-depth description of each procedure is accompanied by abundant photographs, line drawings, and over 100 color laparoscopic images to clearly illustrate the technique in an atlas format.

CONTENTS:

Part 1. Principles of Laparoscopy.

1. History of Laparoscopy in Animals and Humans.
2. Laparoscopic Anatomy.
3. Basic Laparoscopic Techniques and Training.
4. Nondisposable Instrumentation for Equine Laparoscopy.
5. Disposable Endoscopic Instruments.
6. Electrosurgery in Laparoscopy.
7. Use of Lasers in Laparoscopic Surgery.
8. Laparoscopic Suturing.
9. Endoscopic Photographic and Videographic Documentation in Equine Laparoscopy.
10. Digitization of Clinical Data in Veterinary Medicine.
11. Analgesia and Anesthesia for Equine Laparoscopy and Thoracoscopy.

Part 2. Surgical Laparoscopy.

12. Laparoscopic Evaluation of Horses with Acute or Chronic Colic.
13. Laparoscopic Biopsy Techniques.
14. Laparoscopic Cryptorchidectomy in the Dorsally Recumbent Horse.
15. Standing Laparoscopic Cryptorchidectomy.
16. Laparoscopic Castration Techniques.
17. Laparoscopic Inguinal Herniorrhaphy.
18. Laparoscopic Inguinal Herniorrhaphy (Non-Testicle-Sparing).
19. Ventral Abdominal Approach for Bilateral Laparoscopic Ovariectomy.
20. Laparoscopic Ovariectomy in the Standing Horse.
21. Ventral Abdominal Approach for Laparoscopic Removal of Granulosa Cell Tumors.
22. Laparoscopic Removal of Granulosa Cell Tumors in the Standing Horse.
23. Laparoscopic Surgery in Foals.
24. Laparoscopic Surgery of the Foal Bladder and Umbilical Structures.
25. Laparoscopic Colopexy.
26. Laparoscopic Removal of Cystic Calculi.
27. Laparoscopic Management of Rectal and Colonic Tears in Horses.
28. Laparoscopic Embryo Transfer.
29. Use of Laparoscopy for Teaching.
30. Thoracoscopy.
31. Laparoscopic Closure of the Nephrosplenic Space in the Standing Horse.
32. Laparoscopic Nephrectomy in the Standing Horse.
