DESCRIPTION

Written by top oculoplastic surgeons in the field, including Frank A. Nesi, MD, this atlas combines an innovative educational technique: line drawings that correspond to videoclips on DVD. The text's distinguished authors have perfected the most frequently performed oculoplastic surgical techniques. Their atlas series is designed to instruct all ophthalmologists who wish to learn these techniques and thus enhance their income. This volume covers the latest in cosmetic facial surgery techniques including endoscopic foreheadplasty, direct eyebrow lift, rhytidectomy surgery, mid-face lift and facial cosmetic Botox.

Mastery of these procedures is made easier by following the step-by-step illustrations that are complemented by videoclips on DVD. The study of the supporting anatomy, followed by clear cut guidelines with heavily illustrated techniques, offers a format which will allow the learner to gain the necessary understanding for achieving a more favorable result.

CONTENTS:

1. Cosmetic Facial Anatomy
2. Endoscopic Foreheadplasty
3. Direct Eyebrow Lift
4. Rhytidectomy Surgery
5. Mid-face Lift
6. Upper Blepharoplasty
7. Lower Blepharoplasty
8. Laser Skin Resurfacing
9. Facial Cosmetic Botox
10. Lip Augmentation
11. Soft Tissue Augmentation.
