DESCRIPTION:

Now in its fourth edition, this technical manual profiles commercially available stents and those that will soon be available. Presented in bullet form, each chapter provides an outline of the description, history, stent photograph, technical specifications, delivery system, indications for clinical use, new product developments, on-going or planned trials, angiographic and intravascular ultrasound image, and references. The appendices provide chapters about radiographic, IVUS appearances of the stents, adjunct pharmacological therapy, and stent coatings. Edited by, and with contributions from, leading experts, the manual provides an organized review of a variety of stents.
