

DIABETES AND CARDIOVASCULAR DISEASE

Autor: Johnstone

ISBN: 9781588294135

Páginas: 672

Año: 2006

Edición: 2

Idioma: Ingles

Disponible: De 2 a 3 Semanas

Precio: ~~121.90~~
115.81

Iva no incluido

DESCRIPTION:

This extensively updated and expanded second edition reflects new research, advances in clinical care, and the growing recognition that diabetes mellitus is a risk factor for cardiovascular disease. Written for the practicing clinician as a comprehensive review of diabetic vascular disease, the book both explains the basic pathophysiology of the disease and details the latest diagnostic and therapeutic approaches. The authors have added new chapters on percutaneous interventional therapy in cardiac and peripheral vascular disease, cardiovascular surgery in diabetes, therapeutic interventions to improve endothelial function in diabetes, PARP activation and nitrosative stress in the development of the cardiovascular system, and PPARs and their emerging role in vascular biology, inflammation, and atherosclerosis.

CONTENTS:**PART I. PATHOPHYSIOLOGY**

- 1 Effects of Insulin on the Vascular System
- 2 Effects of Diabetes and Insulin Resistance on Endothelial Functions
- 3 Diabetes and Advanced Glycoxidation End-Products
- 4 The Renin-Angiotensin System in Diabetic Cardiovascular Complications
- 5 PPARs and Their Emerging Role in Vascular Biology, Inflammation, and Atherosclerosis
- 6 Diabetes and Thrombosis
- 7 Role of Estrogens in Vascular Disease in Diabetes: Lessons Learned From the Polycystic Ovary Syndrome
- 8 Poly(ADP-Ribose) Polymerase Activation and Nitrosative Stress in the Development of Cardiovascular Disease in Diabetes
- 9 Adiponectin and the Cardiovascular System
- 10 Nitric Oxide and Its Role in Diabetes Mellitus
- 11 Diabetes and Atherosclerosis
- 12 The Use of Animal Models to Study Diabetes and Atherosclerosis and Potential Anti-Atherosclerotic Therapies

PART II. CLINICAL**A. RISK FACTORS**

- 13 The Metabolic Syndrome and Vascular Disease
- 14 Diabetes and Hypertension
- 15 Diabetes and Dyslipidemia

B. MICROCIRCULATION

- 16 Diabetic Retinopathy
- 17 Diabetic Nephropathy
- 18 Diabetic Neuropathy
- 19 Microcirculation of the Diabetic Foot

C. CARDIOVASCULAR SYSTEM: PERIPHERAL VASCULAR SYSTEM

- 20 Epidemiology of Peripheral Vascular Disease
- 21 Noninvasive Methods to Assess Vascular Function and Pathophysiology
- 22 Peripheral Vascular Disease in Patients With Diabetes Mellitus
- 23 Therapeutic Interventions to Improve Endothelial Function in Diabetes

D. CARDIOVASCULAR SYSTEM: CARDIAC

- 24 Preoperative Assessment and Perioperative Management of the Surgical Patient With Diabetes Mellitus
- 25 Diabetes and Percutaneous Interventional Therapy
- 26 Cardiac Surgery and Diabetes Mellitus
- 27 Heart Failure and Cardiac Dysfunction in Diabetes
- 28 Diabetes Mellitus and Heart Disease
