

TREATMENT OF CEREBRAL PALSY AND MOTOR DELAY

	Autor: Levitt
	ISBN: 9781405176163
	Páginas: 368
	Año: 2010
	Edición: 5
	Idioma: Ingles
Disponible: De 2 a 3 Semanas	
Precio: 45.00 42.75	Iva no incluido

DESCRIPCION:

Treatment of Cerebral Palsy and Motor Delay is first and foremost a practical book, a distillation of Sophie Levitt's considerable experience in treating those affected by cerebral palsy. This fifth edition outlines therapeutic approaches and suggests treatment and management options, providing a wealth of practical information, supported by clear diagrams and photographs, on assessment, management and treatment. The book emphasises an eclectic, holistic approach, and integrates current ideas on motor control and motor learning in a further development of Levitt's Collaborative Learning Approach. This new edition provides greater commentary on evidence-based practice, as well as practical, updated information on the use of Botulinum Toxin, orthopaedic surgery and the therapist's role following these procedures. The book is aimed primarily at practitioners and students concerned with the developmental abilities and difficulties of children, particularly physiotherapists and occupational therapists working in paediatrics. Doctors and other healthcare professionals will also find useful insights in the book. Parents, families and also teachers of people with cerebral palsy can learn more about therapy by consulting the book together with their therapist.

- Written by an international authority in the field
- Extensively revised, updated and well referenced
- Emphasises an eclectic, functional and holistic approach
- Highly illustrated
- Promotes positive relationships between therapists, people with cerebral palsy and their families

INDICE:

- 1 The clinical picture for therapy and management
 - 2 A collaborative learning approach
 - 3 Outline of treatment approaches
 - 4 Evidence-based practice
 - 5 Synthesis of treatment systems
 - 6 Learning motor function
 - 7 The older person with cerebral palsy
 - 8 Assessment for therapy and daily function
 - 9 Treatment procedures and management
 - 10 Motor function and the child's daily life
 - 11 Management of deformity
 - 12 Therapeutic group work
- Appendix 1: Developmental levels
Appendix 2: Equipment
