DESCRIPTION:

Using a comprehensive, case-based learning approach, Pedretti's Occupational Therapy: Practice Skills for Physical Dysfunction, 7th Edition provides a thorough introduction to occupational therapy practice and prepares you to work with adults who have physical disabilities. 48 chapters cover everything from OT history, theory, process, and practice to evaluation, intervention, performance skills, and client factors. Significant updates have been made to this edition, including a new full-color design and new content on polytrauma and advances in prosthetics and assistive technologies. This leading text also offers a wide range of helpful features, such as threaded case studies, OT practice notes, and ethical considerations that help you apply content to a clinical setting.

CONTENTS:

Part I: Overview: Occupational Therapy Foundations for Physical Dysfunction

1. The Occupational Therapy Practice Framework and the Practice of Occupational Therapy for Persons with Physical Disabilities
2. History and Practice Trends in the Treatment of Physical Dysfunction

Part II: Occupational Therapy Process and Practice

3. Application of the Occupational Therapy Practice Framework to Physical Dysfunction

5. Health Promotion and Wellness for People with Physical Disabilities
6. Personal and Social Contexts of Disability: Implications for Occupational Therapists
7. Teaching Activities in Occupational Therapy
8. Documentation of Occupational Therapy Services
9. Infection Control and Safety Issues in the Clinic

Part III: Occupational Performance and the Performance Areas: Evaluation and Intervention

10. Activities of Daily Living
11. Mobility
 - Section I: Functional Ambulation
 - Section II: Wheelchairs
 - Section III: Community Mobility
12. Sexuality and Physical Dysfunction
13. Sleep and Rest
14. Work Evaluation and Work Programs
15. Americans with Disabilities Act and Related Laws that Promote Participation in Work, Leisure, and Activities of Daily Living
16. Leisure Occupations
17. Assistive Technology

Part IV: Performance Skills and Client Factors: Evaluation and Intervention

18. Performance Skills: Definitions and Evaluation in the Context of the Occupational Therapy Practice Framework
19. Evaluation of Motor Control
20. Occupation-Based Functional Motion Assessment
21. Evaluation of Joint Range of Motion
21. . Evaluation of Muscle Strength
23. Evaluation of Sensation and Intervention for Sensory Dysfunction
24. Evaluation and Treatment of Visual Deficits Following Brain Injury
25. Evaluation and Intervention of Perceptual Dysfunction
26. Evaluation and Intervention of Cognitive Dysfunction
27. Eating and Swallowing

28. Evaluation and Pain Management

Part V: The Occupational Therapy Process: Implementation of Intervention

29. Therapeutic Occupations and Modalities

30. Orthotics

Section I: Hand Splinting: Principles, Practice, and Decision Making

Section II: Suspension Arm Devices and Mobile Arm Supports

31. Traditional Sensorimotor Approaches to Intervention

Section I: The Rood Approach: A Reconstruction

Section II: Proprioceptive Neuromuscular Facilitation Approach

32. Motor Learning

Part VI: Intervention Applications

33. Cerebral Vascular Accident/Stroke

34. Traumatic Brain Injury

35. Degenerative Diseases of the Central Nervous System

Section 1: Amyotrophic Lateral Sclerosis

Section 2: Alzheimer's Disease

Section 3: Huntington's Disease

Section 4: Multiple Sclerosis

Section 5: Parkinson's Disease

36. Spinal Cord Injury

37. Neurogenic and Myopathic Dysfunction

38. Arthritis

39. Hand and Upper Extremity Injuries

40. Hip Fractures and Lower Extremity Joint Replacement

41. Low Back Pain

42. Burns and Burn Rehabilitation

43. Amputations and Prosthetics

Section 1: General Considerations of Upper and Lower Extremity Amputations

Section 2: Upper Extremity Amputations

Section 3: Lower Extremity Amputations

44. Cardiac and Pulmonary Diseases

45. Oncology

46. Special Needs of the Older Adult

47. HIV Infection and AIDS

48. Polytrauma and the War on Terror NEW!
