DESCRIPTION:

A compendium of basic principles and clinical practice

This publication contains the most recent findings in the field as presented by the outstanding faculty of the 2012 International Vicenza Course on Peritoneal Dialysis. After 30 years, this course is still one of the main educational events in the field of peritoneal dialysis as well as other disciplines including CKD, hemodialysis and critical care nephrology. The publication of the book in time for the course represents another success of the Vicenza team. The experts of the world and the related industry met in Vicenza for this important anniversary which is celebrated by this book representing not only a milestone in the history of the Department of Nephrology and the International Renal Research Institute of Vicenza, but also and above all an extraordinary educational tool for all physicians and nurses interested in peritoneal dialysis today.

CONTENTS:

Peritoneal Dialysis Solutions

- Twenty Years of Bicarbonate Solutions
- Peritoneal Dialysis Solution and Nutrition
- Alternative Dialysis Strategies with Icodextrin
- Are Current Peritoneal Dialysis Solutions Adequate for Pediatric Use?

New Challenges for PD and Home Therapies

- Brazilian Peritoneal Dialysis Multicenter Study (BRAZPD): From Conception to Execution of a National Peritoneal Dialysis
- Comparing Outcomes of Hemodialysis and Peritoneal Dialysis Patients: Consider the Pitfalls
- Hypogonadism in Males with Chronic Kidney Disease: Another Cause of Resistance to Erythropoiesis-Stimulating Agents?

Practical Issues in Peritoneal Dialysis 1

- Getting the Right Patient on the Right Renal Replacement Therapy
- Doubts on the Long-Term Survival of Peritoneal Dialysis Patients Are No Longer a Medical Barrier to Home Dialysis
- How to Avoid Technique Failure in Peritoneal Dialysis Patients?
- Clinical Practice Guidelines: An Important Tool in Improving Dialysis Quality

Telemedicine and e-Health in PD

- Remote Monitoring for Continuous Peritoneal Dialysis
- e-Health: Remote Health Care Models in Peritoneal Dialysis
- Remote Monitoring of Peritoneal Dialysis in Special Locations

Lipid Disorders, Inflammation and Anemia

- Dialysis Modality Choice for the Elderly Patient with End-Stage Renal Disease
- Anemia Management in Patients on Peritoneal Dialysis
- Maximizing the Erythropoietin Response: Iron Strategies
- Lipid Disorders in Uremia and Dialysis
- Statins and Lipid-Lowering Strategies in PD
- Statin Therapy Is Associated with Decreased Small, Dense Low-Density Lipoprotein Levels in Patients Undergoing Peritoneal Dialysis

CKD-MBD and Inflammation Management in PD

- Phosphate Control in Peritoneal Dialysis
- Role of Vitamin D Receptor Activators in Peritoneal Dialysis
- Calcimimetics in Peritoneal Dialysis Patients

Factors Affecting Loss of Residual Renal Function(s) in Dialysis
Prospective Safety Study of Bardoxolone Methyl in Patients with Type 2 Diabetes Mellitus, End-Stage Renal Disease and Peritoneal Dialysis

Fluid Overload and Cardiovascular Events

Assessment of Fluid Status in Peritoneal Dialysis
Fluid Transport and Homeostasis in Peritoneal Dialysis
Bioimpedance and Brain Natriuretic Peptide in Peritoneal Dialysis Patients
Role of Peritoneal Dialysis as a Chronic Renal Replacement Therapy in Cardiorenal Patients
Vascular and Arterial Calcification in Peritoneal Dialysis Patients - State-of-the-Art 2012

Practical Issues in Peritoneal Dialysis 2

Adequacy in Peritoneal Dialysis
Setting Up Research in Peritoneal Dialysis

Peritoneal Dialysis Technology

Continuous Flow Peritoneal Dialysis: Update 2012
Combination Therapy: Five Days PD and One Day HD - What Are the Benefits?
Peritoneal Dialysis Access: What's the Best Approach?
Time between Peritoneal Dialysis Catheter Insertion and Use
Peritoneal Dialysis Membrane Evaluation in Clinical Practice
Bioelectrical Impedance Analysis in the Assessment of Hydration Status in Peritoneal Dialysis Patients

Peritonitis and Other Clinical Outcomes

Today's Approaches to Prevent Peritonitis
Transplant Outcomes and Dialysis Modality
Neutrophil Gelatinase-Associated Lipocalin in the Early Diagnosis of Peritonitis: The Case of Neutrophil Gelatinase-Associated Lipocalin
Prognostic Factors for Peritonitis Outcome
Improving the Care of Diabetic Patients on Peritoneal Dialysis
How to Select among Dialysis Options
