

**RHEUMATOLOGY AND THE KIDNEY**

Edited by  
Doreen Adu, Paul Emery, and Michael Malatac

Rheumatology  
and the Kidney  
Second Edition

OXFORD UNIVERSITY PRESS

**Autor:** Adu

**ISBN:** 9780199579655

**Páginas:** 488

**Año:** 2013

**Edición:** 2

**Idioma:** Ingles

**Disponible:** De 7 a 10 Días

**Precio:** ~~86.40~~  
82.08

Iva no incluido

**DESCRIPTION:**

Covering all aspects of the many rheumatologic disorders associated with renal disease, including pathogenesis, clinical features and treatment, Rheumatology and the Kidney brings together the available information in an accessible and practical way, with a particular focus on evidence-based patient management. Part of the Oxford Clinical Nephrology Series, and featuring chapters from a team of international experts, this new edition has been completely updated since publication of the first edition in 2001 and now contains more tables and figures to make the information more accessible.

Completely updated since publication of the first edition in 2001, and with more illustrations, this book brings together the available information on the many rheumatologic disorders associated with renal disease in an accessible and practical way, with a particular focus on evidence-based patient management.

**CONTENTS:****Lupus nephritis**

1. Clinical presentation and assessment of disease activity in lupus nephritis
2. Lupus nephritis: Histopathology
3. Lupus nephritis: Complement in lupus
4. Pathogenesis of lupus nephritis
5. Evidence-based treatment of lupus nephritis
6. The role of biologicals in the treatment of lupus nephritis
7. Systemic lupus erythematosus in pregnancy
8. Renal involvement in the antiphospholipid syndrome

**Vasculitis**

9. Vasculitis classification
10. The immunopathogenesis of vasculitis
11. Pathology of vasculitis
12. Assessment of disease activity and damage in the ANCA associated systemic vasculitides
13. The clinical presentation and treatment of renal vasculitis
14. Polyarteritis nodosa
15. Henoch-Schoenlein purpura
16. Takayasu arteritis

**Systemic sclerosis**

17. Immunopathogenesis, clinical features and treatment of systemic sclerosis

**Amyloidosis**

18. Immunopathogenesis and diagnosis of amyloidosis
19. Rheumatic disease and amyloid: Clinical features and treatment
20. Primary amyloidosis
21. Light-chain and heavy-chain deposition diseases

**Virus associated disease**

22. Hepatitis C virus-associated mixed cryoglobulinemia
23. Hepatitis B virus-associated renal diseases
24. Rheumatic complications of HIV infection
25. Renal complications of HIV infection

**Nephrotoxicity of drugs**

26. NSAID"s nephrotoxicity
27. Nephrotoxicity of drugs used in rheumatology: Analgesic nephropathy
28. Renal toxicity of anti-rheumatic drugs

**Other**

29. Rheumatologic diseases associated with interstitial nephritis
30. Management of gout in the patient with renal disease

**Rheumatological complications**

31. Nephrogenic systemic fibrosis
32. Rheumatological complications of renal disease and transplantation
