

NEUROMUSCULAR DISORDERS IN CLINICAL PRACTICE, 2 Vols.

	Autor:	Katirji
	ISBN:	9781461465669
	Páginas:	1584
	Año:	2013
	Edición:	2
	Idioma:	Ingles
Disponible:	De 2 a 3 Semanas	
Precio:	200.00 190.00	Iva no incluido

DESCRIPTION:

Comprehensive, thoroughly updated, and expanded, Neuromuscular Disorders in Clinical Practice, Second Edition encompasses all disorders of the peripheral nervous system, covering all aspects of neuromuscular diseases from diagnosis to treatment. Mirroring the first book, this two-volume edition is divided into two parts. Part one discusses the approach to neuromuscular disorders, covering principles and basics, neuromuscular investigations, and assessment and treatment of neurological disorders. Part two then addresses the complete range of specific neuromuscular diseases: neuronopathies, peripheral neuropathies, neuromuscular junction disorders, muscle ion channel disorders, myopathies, and miscellaneous neuromuscular disorders and syndromes.

Neuromuscular Disorders in Clinical Practice, Second Edition is intended to serve as a comprehensive text for both novice and experienced practitioners. General neurologists as well as specialists in neuromuscular medicine and trainees in neuromuscular medicine, clinical neurophysiology and electromyography should find this book inclusive, comprehensive, practical and highly clinically focused. Additionally, specialists in physical medicine and rehabilitation, rheumatology, neurosurgery, and orthopedics will find the book of great value in their practice.

CONTENTS:

Part 1. Approach to Neuromuscular diseases

Section 1. Principles and Basics

1. Clinical Assessment in Neuromuscular Disorders
2. Nerve and Muscle: Basic Concepts

Section 2. Neuromuscular Investigations

3. Serum Muscle Enzymes in Neuromuscular Disease
4. Autoantibody Testing in Peripheral Neuropathy
5. Autoantibody Testing of Autoimmune Neuromuscular Junction, Hyperexcitability, and Muscle Disorders
6. Forearm Exercise Testing
7. Clinical Electromyography (Nerve Conduction Studies and Needle Electromyography)
8. Single Fiber EMG
9. Quantitative EMG Analysis
10. Testing of Autonomic Function
11. Quantitative sensory testing
12. Nerve and Muscle Biopsies
13. Skin Biopsy
14. Molecular Diagnosis & Genetic Testing

Section 3. Assessment and treatment of Neurological Disorders

15. Outcome Measures and Clinical Assessment Instruments in Neuromuscular Disease
16. Physical Management of Patients with Neuromuscular Diseases
17. Immunotherapy in the treatment of Autoimmune Neuromuscular Diseases
18. Critical and Respiratory Care in Neuromuscular Disorders

Part 2. Neuromuscular Disorders

Section 1. Neuronopathies (Motor neuron and Dorsal root ganglion disorders)

19. Poliomyelitis and Postpoliomyelitis Syndrome
20. Amyotrophic Lateral Sclerosis
21. Spinal Muscular Atrophies
22. Atypical Motor Neuron Disorders
23. Dorsal Root Ganglion Disorders

Section 2. Peripheral Neuropathies

24. Approach to Peripheral Nerve Disorders

25. Approach to Small Fiber Neuropathy
26. Charcot-Marie Tooth Diseases
27. Inherited Metabolic Neuropathies
28. Guillian-Barre Syndrome and Related Disorders
29. Chronic Inflammatory Demyelinating Polyradiculneuropathy and Related Disorders
30. Dysproteinemic Neuropathies
31. Diabetic Neuropathies
32. Nutritional and Alcoholic Neuropathies
33. Metabolic and Endocrine Neuropathies
34. Environmental Toxic Neuropathies
35. Drug-Induced Toxic Neuropathies
36. Vasculitic Neuropathies and Neuropathies of Connective Tissue Disorder
37. Vasculitic Neuropathies and Neuropathies of Connective Tissue Diseases
38. Infectious and Granulomatous Peripheral Neuropathies
39. Peripheral Nerve Injury
40. Compressive and Entrapment Neuropathies of the Upper Extremities
41. Compressive and Entrapment Mononeuropathies of the Lower Extremity
42. Cranial Nerve Palsies
43. Peripheral Nerve Tumors
44. Cervical Radiculopathy
45. Lumbosacral and Thoracic Radiculopathies
46. Brachial Plexopathies
47. Lumbosacral Plexopathies

Section 3. Neuromuscular Junction Disorders

48. Myasthenia Gravis
49. Lambert-Eaton Myasthenic Syndrome
50. Botulism
51. Congenital Myasthenic Syndromes
52. Toxic Neuromuscular Transmission Disorders

Section 4. Muscle Ion channel disorders

53. Disorders of Skeletal Muscle Membrane Excitability: Myotonia Congenita, Paramyotonia Congenita, Periodic Paralysis and Related Syndromes
54. Malignant Hypothermia

Section 5. Myopathies

55. Approach to Myopathies
56. Dystrophinopathies
57. Limb Girdle Muscular Dystrophies
58. Facioscapulohumeral Muscular Dystrophy
59. The Myotonic Dystrophies
60. Oculopharyngeal Muscular Dystrophy
61. Emery-Dreifuss Muscular Dystrophy
62. Congenital Myopathies
63. Metabolic Myopathies
64. Mitochondrial Myopathies
65. Inflammatory Myopathies
66. Paraspinous Myopathies: The Dropped Head and Bent Spine Syndromes
67. Endocrine Myopathies
68. Toxic Myopathies
69. Infectious and Granulomatous Myopathies

Section 6. Miscellaneous Neuromuscular disorders and syndromes

70. Myokymia and Neuromyotonia
71. Muscle Cramps and Fasciculations
72. Stiff Man Syndrome
73. Tetanus
74. Neuropletic Malignant Syndrome
75. Paraneoplastic Neuromuscular Disorders
76. Acute Neuromuscular Weakness in the Intensive Care Unit
77. Floppy Infant
78. Rhabdomyolysis and Myoglobinuria
79. Eosinophilia-Myalgia Syndrome, Eosinophilic Fasciitis, and Related Fasciitis Disorders
80. Neuropathic Pain and other Chronic Musculoskeletal Pain Conditions
