

RNA REGULATION, 2 VOLS.

	Autor:	Meyers
	ISBN:	9783527331567
	Páginas:	940
	Año:	2014
	Edición:	1
	Idioma:	Ingles
Disponible:	De 2 a 3 Semanas	
Precio:	290.00 275.50	Iva no incluido

DESCRIPTION:

Based on one of the leading encyclopedic resources in cell and molecular biology worldwide, this two-volume work contains more than 75% new content, not previously published in the Encyclopedia. All the other chapters have been carefully updated.

The result is a comprehensive overview of the different functions of the various forms of RNA in living organisms, with each contributor carefully selected and an internationally recognized expert on his or her field. Special focus is on the different forms of expression regulation through RNA, with medical applications in the treatment of diseases -- from cancers and immune responses to infections and aging -- covered in detail. At least 45 of the 55 articles are new content previously not published in the Encyclopedia.

CONTENTS:

I Bioinformatic and Computational Methods

RNA-regulatory networks Integrative Modeling

II Medical Applications

Regulation in Aging

Myriam Gorospe NIH NIAging

Cancer miRNAs in Cancer

Scott Hammond University of North Carolina at Chapel Hill

Cancer Non-Protein-Coding RNAs (ncRNAs) at Gene Promoter Regions in Cancer

David Corey UT Southwestern

Cancer Translation regulation by microRNAs in leukemia

Shobha Vasudevan Massachusetts General Hospital, Harvard Medical School

General Pharmacology and Emerging Clinical Application of RNA

Barik, Saiten University of South Alabama

Hepatitis Infection RNAi to Treat Chronic Hepatitis B Virus Infection

Arbutnot P University of the Witwatersrand Medical School, Hepatitis Infection RNAi to Treat Chronic Hepatitis C Infection

Linda Couto Childrens Hospital of Philadelphia

HIV Infection RNAi Gene Therapy to Control HIV-1 Infection

Ben Berkhout and Olivier ter Brake University of Amsterdam

Immunity RNA responses to cell stress in the immune response

Paul Anderson Harvard Medical School

Immunity RNA-based immune regulators

Jens Lykke-Andersen University of California ? San Diego

Infections Cellular miRNAs in Mammalian Antiviral Immune Responses

Joost Haasnoot and Ben Berkhout University of Amsterdam

Infections Virally Encoded miRNAs

Thomas Tuschl Rockefeller U

III Methods for Analysis and Manipulation of RNA-mediated Regulation

Characterization RNA Methodologies

Farrell, Jr., Robert E. Penn State University

Vectors Bacterial Vectors for RNAi Delivery

Vectors Lipid-like molecules for Delivery of RNAi to cells.

Vectors Nanoparticles for Small Interfering RNA Delivery

Vectors RNAi Delivery with Viral Vectors

Vectors RNAi Delivery Optimization

Characterization RNAi Screening and Assays

IV Molecular Cell Biology

Antisense Antisense-RNA regulation

Apoptosis RNA regulation in apoptosis

Bacteria Bacterial tmRNA regulation of the cell cycle and developmental process
Bacteria Small regulatory non-coding RNAs in bacteria
Core Article Regulation of Gene Expression
Developmental miRNAs (Micro RNAs) in Developmental Processes
Developmental miRNA-targeted mRNAs that control cellular differentiation pathways
Developmental RNA Regulation in Myogenesis
Developmental RNA Silencing in Periconception
Function Large Intergenic Noncoding RNAs (lincRNAs)
Function Non-coding RNAs in imprinted gene clusters
Function Non-coding RNAs regulating the transcriptional machinery
Function Non-Protein-Coding RNAs (ncRNAs) in Chromatin Function
Function Ribosome and Gene Expression
Function Riboswitches in Gene Regulation
Function RNA Editing and Nucleotide Modification
Function RNA Interference in the Nucleus
Function Translate or to Degrade a Cytoplasmic mRNA Decision Mechanism
Fundamental Processes RNA-induced initiation of transcriptional silencing (RITS) Complex Structure and Functions
Fundamental Processes RNA-Induced Silencing Complex (RISC) Structure and Functions
Insects RNAi Based Antiviral Immune System in Insects
Insects RNA-Mediated Gene Regulation in Drosophila
Plants RNA silencing Cell to Cell movement in plants
Plants RNA Silencing in Plants
Silencing dsRNA mediated gene silencing process
Silencing Gene Knockdown in Mice with siRNA
Stability RNA stability in mammalian cells
Stem Cells RNA Induced Pluripotent Stem Cells (RiPS)
Structure RNA as a Regulator of Chromatin Structure
Transport Direct Visualization of RNA transport and localization of specific RNAs within individual cells
Transport mRNP (messenger ribonucleoprotein) export to the Cytoplasm
Transport Nuclear Export and Maturation of Ribosomes
Transport siRNAs Transport from the Cytoplasm to the Nucleus
Transport tRNA Subcellular Dynamics
Viruses RNA regulatory processes in viruses
