**DESCRIPTION:**

Diabetes and Kidney Disease reviews the most up-to-date research on diabetic nephropathy, the current understanding of its pathophysiology, renal structural alterations and clinical features, and summarizes recent evidence-based clinical treatment modalities for the prevention and management of diabetic kidney disease. General clinical aspects are covered, as well as an overview to the novel approaches being designed by leading researchers in the field.

A convenient compendium for physicians involved in the care of diabetic patients with varying degrees of kidney involvement, Diabetes and Kidney Disease is also a handy resource for medical residents and students interested in the current status and future approaches to reducing the burden of diabetes and diabetic kidney disease.

**CONTENTS:**

Chapter 1. The Background History of Diabetic Nephropathy

**Part One. Natural Course, Pathogenesis, Morphology and Genetics**

Chapter 2. Diabetic Nephropathy: Scope of the Problem

Chapter 3. Natural Course (Stages / Evidence Based Discussion)

Chapter 4. Pathogenesis of Diabetic Nephropathy: Hemodynamic Alterations/Renin Angiotensin System

Chapter 5. Renal Structural Changes in Type 1 and 2 Diabetes Mellitus: Pathology, Pathogenesis, and Clinical Correlations

Chapter 6. Diabetes in Children and Adolescents

**Part Two. Clinical Presentation and Associated Disorders**

Chapter 7. Screening, Early Diagnosis, Genetic Markers and Predictors of Diabetic Nephropathy

Chapter 8. Atypical Presentations of Diabetic Nephropathy and Novel Therapies

Chapter 9. Albuminuria-Proteinuria in Diabetes Mellitus

Chapter 10. Hypertension in Diabetes Mellitus

Chapter 11. Cardiovascular Disease in Diabetic Nephropathy

Chapter 12. Dyslipidemia in Diabetes Mellitus and Chronic Kidney Disease

Chapter 13. Diabetic Eye Disease

Chapter 14. Pregnancy and Diabetic Nephropathy

Chapter 15. Transplantation: Kidney, Kidney - Pancreas Transplant

**Part Three. Treatment and Prognosis**

Chapter 16. Glycemic Control

Chapter 17. Computerized Clinical Decision Support for Patients with Diabetes and Chronic Kidney Disease

Chapter 18. Antihypertensive and Other Treatments in Early Stages of Diabetic Nephropathy

Chapter 19. Novel Treatments and the Future of Diabetic Nephropathy -What is on the Horizon?
