Páginas: 256
Año: 2014
Edición: 1
Idioma: Ingles
Disponible: De 2 a 3 Semanas
Precio: ~~59.00~~
56.05 Iva no incluido

DESCRIPTION:

Help your students master landmark palpation skills with the first resource on the market to include video footage that demonstrates full palpation techniques, along with tips for landmark location. The printed handbook serves as a portable, pictorial summary of the full, web-based video product. Ideal for use by students on their own or as visual aid when teaching skills in classroom or lab, this handbook/video resource is an ideal supplement for evaluation/assessment and clinical skills courses.

Features:

- Help your students identify, understand, and palpate the whole body correctly through an extensive array of video clips that demonstrate full palpation techniques, including various angles, views, and tips.
- Give your students on-the-go access to technique videos through the mobile friendly website.
- Help your students learn how to set up for proper palpation through coverage of both patient and evaluator positioning.
- Ensure student accuracy when locating each landmark through both skeletal and anatomical views.

CONTENTS:

SECTION I: UPPER BODY PALPATIONS

- Chapter 1. Face/Head/Neck
- Chapter 2. Back/Chest
- Chapter 3. Shoulder
- Chapter 4. Elbow/Forearm
- Chapter 5. Hand/Wrist

SECTION II: LOWER BODY PALPATIONS
