**DESCRIPTION:**

Master the art and science of specimen collection, preparation, and evaluation with *Canine & Feline Cytology: A Color Atlas and Interpretation Guide, Second Edition*. This easy-to-use guide covers all body systems and fluids including a special chapter on acquisition and management of cytology specimens. Hundreds of vivid color images of normal tissue alongside abnormal tissue images - plus concise summaries of individual lesions and guidelines for interpretation - will enhance your ability to confidently face any diagnostic challenge.

**Key Features:**

- A greatly expanded image collection, with more than 1,200 vivid, full-color photomicrographic illustrations depicting multiple variations of normal and abnormal tissue for fast and accurate diagnosis
- Clear, concise descriptions of tissue sampling techniques, slide preparation and examination guidelines
- Helpful hints for avoiding technical pitfalls and improving diagnostic quality of specimens
- Includes all body systems and fluids as well as pathological changes associated with infectious agents
- Histologic and histopathologic correlates provided in all organ system chapters
- User-friendly format and logical organization facilitates readability and learning
- Expert contributors represent the most respected leaders in the field

**New to This Edition:**

- NEW! Chapter on Fecal Cytology
- Highlighted boxes featuring Key Points provide helpful tips for best conceptual understanding and diagnostic effectiveness
- Photomicrographs now include more comparative histology
- Discussions of broader uses of stains and immunocytochemistry for differential cytologic characterization
- Expanded chapter on Advanced Diagnostic Techniques includes more methodology and application of current tools, representing advances in both aspiration and exfoliative cytology

**CONTENTS:**

1. The Acquisition and Management of Cytology Specimens
  2. General Categories of Cytologic Interpretation
  3. Skin and Subcutaneous Tissues
  4. Lymphoid System
  5. Respiratory Tract
  6. Body Cavity Fluids
  7. Oral Cavity, Gastrointestinal Tract, and Associated Structures
  8. Dry-Mount Fecal Cytology
  9. The Liver
  10. Urinary Tract
  11. Microscopic Examination of the Urinary Sediment
  12. Reproductive System
  13. Musculoskeletal System
  14. The Central Nervous System
  15. Eye and Adnexa
  16. Endocrine System
  17. Advanced Diagnostic Techniques
- Appendix: Reference Values and Key Characteristics
