DESCRIPTION:

This new edition of a must-have manual, edited by Elizabeth Villiers, Jelena Ristic and Laura Blackwood, features new case studies and updated images. There is an increased focus on principles, testing and interpreting results as well as sampling, genetic testing and diagnosing genetic and inherited diseases. Fully revised and expanded, this manual contains not just advice for the busy practitioner, but also for the concerned owner and how they can play a part in the treatment of their pet.

CONTENTS:

1. In-house versus external testing
2. Quality assurance and interpretation of laboratory data
3. Introduction to haematology
4. Disorders of erythrocytes
5. Disorders of leucocytes
6. Disorders of haemostasis
7. Disorders of plasma proteins
8. Electrolyte imbalances
9. Blood gas analysis and acid--base disorders
10. Urine analysis
11. Renal disorders
12. Laboratory evaluation of hepatic disease
13. Laboratory testing in GI disease
