DESCRIPTION:
This book initiates the descriptions of the practical performance of different hysterectomies with conventional and robotically assisted laparoscopy, laparotomy and vaginal surgery. Laparoscopic hysterectomy has been out as an additional technique for hysterectomies for the last couple of decades. As the necessary light, augmentation and advanced skill has only been introduced into this already 200 year old surgical procedure within the last few decades by laparoscopy, the editors aim to look at the laparoscopic procedures followed by the traditional techniques of hysterectomy with laparotomy and vaginal surgery.

CONTENTS:
1. The History of Hysterectomy
2. History of Radical Hysterectomy
3. Topographical Anatomy for Hysterectomy Procedures
4. Clinical Diagnostics Before Hysterectomy
5. Ultrasound Imaging
6. Radio-Imaging for Benign Uterine Disease
7. Radio-Imaging for Malignant Uterine Disease
8. Interventional Diagnostics Before Hysterectomy
9. Evidence Based Review of Hysterectomy and Sexuality
10. Guidelines and Recommendations of Scientific Societies and Associations for Hysterectomy
11. Choosing the Correct Hysterectomy Technique
12. Indications for Salpingectomy
13. Indications for Oophorectomy and Adnexectomy
14. Uterine Sarcomas and Atypical Smooth-Muscle Tumors: Clinic, Diagnostics and Appropriate Surgical Therapy
15. Uterine Morcellation
16. Learning by Doing: How to Teach Hysterectomy
17. Communicative and Ethical Aspects of the Doctor-Patient Relationship in Extreme Situations
18. Processing and Histopathological Workup of Hysterectomy Specimens
19. Perioperative Management of Antithrombotic Therapy in the Periprocedural Period of Patients Undergoing Hysterectomy
20. Anaesthesia in Gynaecology
21. Indications and Contraindications for Laparoscopic Hysterectomy
22. Preparation (Medical History, Surgical Set-Up, Antibiotics, Anticoagulants)
23. Instrumentation Systems, Apparatus and Materials in Hysterectomy
24. Uterine Manipulators for Total Laparoscopic Hysterectomy
25. Diagnostic Laparoscopy and Final Site RecognitionGeneral Aspects and Their Handling: Adhesions
26. Comorbidities
27. General Surgery Conditions and Techniques for Gyne-Endoscopic Surgeons
28. Fibroids in Laparoscopic Hysterectomy
29. Symptomatic Fibroids as Main Indication for Laparoscopic Hysterectomy and Their Handling
30. Uterine-Preserving Operative Therapy of Uterus Myomatosus
31. Laparoscopic Subtotal Hysterectomy (LSH)
32. Laparoscopic Supracervical Hysterectomy for Large Uteri
33. Cervical Stump Extirpation
34. Total Laparoscopic Hysterectomy for the Small and Normal-Sized Uterus
35. Total Laparoscopic Hysterectomy in Patients with Bulky Uterus
36. Total Laparoscopic Hysterectomy for the Patient with Concomitant Pelvic Organ
37. Laparoscopic Assisted Vaginal Hysterectomy in Prolapse Situations
38. Radical Hysterectomy and Pelvic Lymphadenectomy (French School)
39. Laparoscopic Radical Hysterectomy with Pelvic Lymphadenectomy (Spanish School)
40. Total Laparoscopic Nerve-Sparing Radical Hysterectomy
41. Modified Nerve-Sparing Radical-Like Hysterectomy for Deep Infiltrating Endometriosis
109. Indications and Contraindications of Vaginal Hysterectomy
110. Preparation for Vaginal Hysterectomy: History, Preoperative Assessment, Operative Set-up, Table, Antibiotics
111. Vaginal Hysterectomy: Instrumentation and Apparatuses
112. Colpotomy and the Modalities for Closure
113. Adhesions
114. Comorbidities Associated with Vaginal Hysterectomy
115. Vaginal Total Hysterectomy in Benign Indications: Hysterectomy Techniques in the Normal-Sized Uterus
116. Hysterectomy Techniques for the Large Uterus
117. Vaginal Total Hysterectomy in Benign Indications: Hysterectomy Techniques with Bipolar Diathermy System
118. The Advantages in the Selection and Use of Bipolar Vessel Sealing Devices in Vaginal Hysterectomy, Dependent on the Different Degrees of Operative Difficulty
119. Hysterectomy Techniques in Prolapse Situations
120. Trachelectomy: Removal of Cervical Stump Following Supracervical Hysterectomy
121. Vaginal Salpingo-Oophorectomy
122. The Mayo Technique for Vaginal Hysterectomy
123. Vaginal-Assisted Laparoscopic Radical Hysterectomy and Pelvic Lymphadenectomy
124. Radical Vaginal Trachelectomy
125. Difficult Vaginal Hysterectomy
126. Hysterectomy in Women Without Previous Vaginal Delivery
127. Vaginal Hysterectomy in the Obese Patient
128. Vaginal Cuff Dehiscence Following Hysterectomy
129. Postoperative Care
130. What Is the Place of Myoma Surgery with the Advent of Selective Progesterone Receptor Modulators (SPRMs)?
131. Future Perspectives in Hysterectomy
