

MOSS AND ADAMS" HEART DISEASE IN INFANTS, CHILDREN, AND ADOLESCENTS.2 Vols. + Online access

Autor: Shaddy
ISBN: 9781975116606
Páginas: 2240
Año: 2021
Edición: 10
Idioma: Ingles
Disponible: **En Stock**
Precio: ~~365.00~~
346.75

Iva no incluido

DESCRIPTION:

Widely recognized as the definitive text in pediatric cardiology, Moss and Adams'" Heart Disease in Infants, Children, and Adolescents provides the authoritative, state-of-the-art information you need when caring for young patients with heart disease. The editorial team, led by Dr. Robert Shaddy, from Children'"s Hospital Los Angeles and the University of Southern California, ensures that you are kept fully up to date with recent advances in this complex and fast-changing field. This award-winning title, now in its Tenth Edition, continues to be the reference of choice for today'"s cardiology fellows, pediatric cardiologists, and cardiology practitioners worldwide.

Robert E. Shaddy MD

Professor of Pediatrics, Division Chief, Pediatric Cardiology, The Children'"s Hospital of Philadelphia, University of Pennsylvania School of Medicine, Philadelphia, PA

Daniel J Penny**Timothy F. Feltes MD**

Director, Division of Pediatric Cardiology, Codirector, Heart Center at Columbus Children'"s Hospital Professor of Pediatrics, The Ohio State University, Columbus, OH

Frank Cetta MD, FACC, FASE

Professor of Pediatrics and Medicine
Divisions of Pediatric Cardiology and Cardiovascular Diseases
College of Medicine, Mayo Clinic
Rochester, Minnesota

CONTENTS:**VOLUME I****SECTION I: From the Gene to the Neonate**

1. Development of the Heart: Morphogenesis, Growth, and Molecular Regulation of Differentiation
2. Epidemiology and Prevention of Congenital Heart Defects
3. Genetic Aspects of Congenital Heart Defects
4. Development of Myocardial Structure and Function
5. Fetal and Perinatal Cardiology

SECTION II: Structure and Function of the Cardiovascular System

6. Cardiac Anatomy and Examination of Cardiac Specimens
7. Classification and Terminology of Cardiovascular Anomalies
8. Cardiovascular Physiology
9. History and Physical Evaluation
10. Exercise Screening and Sports Participation
11. Exercise Stress Testing
12. Echocardiography: Basic Principles and Imaging
13. Echocardiographic Assessment of Cardiac Dimensions, Cardiac Function, and Valve Function
14. Magnetic Resonance Imaging
15. Cardiac Computed Tomography in Children with Congenital Heart Disease
16. Cardiac Catheterization and Angiography
17. Therapeutic Cardiac Catheterization

SECTION III: Diagnostic and Therapeutic Methods

18. Anatomy of the Cardiac Conduction System in Congenital Heart Disease
19. The Normal Electrocardiogram
20. Cardiac Channelopathies, Syncope, and Sudden Cardiac Death
21. Electrophysiology Studies and Electrophysiologic Therapeutic Catheterization
22. Disorders of Cardiac Rhythm and Conduction

SECTION IV: Electrophysiology

23. Physiology of the Preterm and Term Infant
24. Cardiovascular Intensive Care
25. Mechanical Circulatory Support in Children
26. Cardiopulmonary and Right-Left Heart Interactions
27. Cardiac Trauma

SECTION V: Pediatric Cardiac Intensive Care

28. Atrial Septal Defects
29. Atrioventricular Septal Defects
30. Ventricular Septal Defects
31. Patent Ductus Arteriosus and Aortopulmonary Window
32. Congenital Anomalies of the Coronary Vessels and the Aortic Root
33. Aortic Arch and Vascular Anomalies
34. Abnormalities of the Aortic Root
35. Anomalies of the Pulmonary Veins
36. Abnormal Systemic Venous Connections
37. Vascular Tumors and Malformations

SECTION VI: Congenital Cardiovascular Malformations**Part A: Septal Defects****Part B: Arterial Abnormalities****Part C: Venous Abnormalities****Part D: The Right Ventricle**

38. Tricuspid Valve Disorders: Atresia, Dysplasia, and Ebstein Anomaly
39. Pulmonary Stenosis
40. Pulmonary and Atresia Intact Ventricular Septum

VOLUME II

41. Tetralogy of Fallot with Pulmonary Stenosis, Pulmonary Atresia, and Absent Pulmonary Valve
42. Truncus Arteriosus

Part E: Left Ventricular Inflow and Outflow Abnormalities

43. Anatomical and Functional Mitral Valve Abnormalities in the Pediatric Population
44. Aortic Stenosis
45. Coarctation of the Aorta

46. Hypoplastic Left Heart Syndrome

Part F: Abnormalities of the Origin of the Great Arteries

47. Transposition of the Great Arteries
48. Congenitally Corrected Transposition of the Great Arteries
49. Double-Outlet Right Ventricle

Part G: Complex Cardiac Abnormalities

50. Univentricular Atrioventricular Connection
51. Cardiac Malpositions and Abnormalities of Atrial and Visceral Situs

SECTION VII: Diseases of the Endocardium, Myocardium, and Pericardium

52. Hypertrophic Cardiomyopathy
53. Dilated Cardiomyopathy
54. Left Ventricular Noncompaction Cardiomyopathy
55. Myocarditis
56. Restrictive Cardiomyopathy
57. The Heart in Muscular Dystrophies
58. Kawasaki Disease (Mucocutaneous Lymph Node Syndrome)
59. Rheumatic Fever and Rheumatic Heart Disease
60. Inflammatory and Immune-Mediated Noninfectious Cardiovascular Diseases
61. Pericardial Diseases
62. Infective Endocarditis and Prevention
63. Heart Transplantation
64. Pathophysiology of Pulmonary Hypertension

SECTION VIII: Pulmonary Vascular Disease

65. Pediatric Pulmonary Hypertension
66. The Adolescent and Adult with Congenital Heart Disease

SECTION IX: Unique Issues Regarding the Young Adult with Congenital Heart Disease

67. Transition to Adult Care
68. Pregnancy in Young Women with Congenital Heart Disease
69. Chest Pain in Children and Adolescents

SECTION X: Other Special Problems and Issues

70. Coronary Risk Factors in Children
71. Cardiac Tumors
72. Chronic Heart Failure in Children
73. Neurodevelopmental Outcomes after Heart Surgery in Children
74. Hematologic Aspects of Pediatric and Adolescent Heart Disease: Bleeding, Clotting, and Blood Component Abnormalities
75. The Fontan Circulation
76. Evaluation of Quality of Life in Children and Adolescents with Congenital and Acquired Heart Disease
77. Psychological Impact of Congenital Heart Disease: Key Timestamps and Clinical Strategies
78. Safety and Quality in the Heart Center
79. Global Challenge of Heart Disease
80. Design, Execution, and Appraisal of Clinical Trials
81. Pharmacology
