

FUSTER & HURST'S THE HEART

Autor: Fuster
ISBN: 9781264257560
Páginas: 2432
Año: 2023
Edición: 15
Idioma: Ingles
Disponible: De 7 a 10 Días
Precio: ~~218.27~~
207.36

Iva no incluido

DESCRIPTION:

The landmark text that belongs in the hands of every cardiologist?fully updated and reorganized to make it more patient-centric than ever

World-famous for its authority and clinical relevance, Fuster and Hurst's The Heart is cardiology's longest continuous published reference book. Written to meet the ever-changing needs of cardiologists, fellows, and interns, this trusted classic offers a solid foundation in cardiovascular medicine and complete coverage of all major cardiovascular topics.

This fifteenth edition presents a greater focus on the practicalities of patient care. Additionally, the content is ordered in more methodical pattern, from mechanism to management. Reflecting the latest technical, therapeutic, and clinical advances, Fuster and Hurst's The Heart provides invaluable concise summaries of major new trials and guidelines.

Authoritative Coverage and Unmatched Utility:

- Central Illustrations
- New section on cardiovascular critical care
- New chapter "Cardiovascular Disease and COVID-19"
- Chapter summaries
- ACC/AHA/ESC guidelines in all chapters
- 1,200+ photos and illustrations

Sections Include:

- Risk Factors for Cardiovascular Disease
- Atherosclerosis and Coronary Heart Disease
- Diseases of the Great Vessels and Peripheral Vessels
- Valvular Heart Disease
- Rhythm and Conduction Abnormalities
- Heart Failure
- Diseases of the Pericardium
- Cardiopulmonary Disease
- Critical Cardiovascular Care
- Adult Congenital Heart Disease
- Special Populations and Topics in Cardiovascular Disease

CONTENTS:**SECTION I Introduction**

1. The Global Burden of Cardiovascular Diseases
2. Clinical Cardiovascular Examination
3. Cardiovascular Imaging Techniques
4. Genomics and Epigenomics of Heart Diseases

SECTION II Risk Factors for Cardiovascular Disease

5. Epidemiology, Pathophysiology, and Treatment of Hypertension
6. Cardiometabolic Disease: Insulin Resistance, Obesity, and the Metabolic Syndrome
7. Diabetes and Cardiovascular Disease
8. Tobacco-Related Cardiovascular Disease
9. Air Pollution and Cardiovascular Disease
10. Hypercholesterolemia, Hyperlipoprotein(A), Hypertriglyceridemia, and Low HDL
11. Psychological Factors in Cardiovascular Health and Disease
12. Sedentary Lifestyle and Role of Exercise in Cardiovascular Diseases
13. Nutrition, Diet, and Alcohol in Health and Cardiovascular Disease
14. Inflammation and Atherosclerosis
15. Location and Level of Care, Education, Availability of Medicines, and Cardiovascular Mortality

SECTION III Atherosclerosis and Coronary Heart Disease

16. Pathology and Pathogenesis of Atherosclerosis and its Progression
17. Pathogenesis of Coronary Thrombosis and Myocardial Infarction
18. ST-Elevation Myocardial Infarction (STEMI)
19. Evaluation and Management of Non-ST-Segment Elevation Acute Coronary Syndromes
20. Mimickers of Atherosclerotic Myocardial Infarction: SCAD, Coronary Vasospasm, Myocarditis, and Takotsubo Syndrome
21. Chronic Coronary Syndromes
22. Cardiac Rehabilitation: Current Practice and Future Directions

SECTION IV Diseases of the Great Vessels and Peripheral Vessels

23. Diseases of the Aorta
24. Carotid Artery Disease
25. Cerebrovascular Disease
26. Diagnosis and Management of Diseases of the Peripheral Arteries

SECTION V Valvular Heart Disease

27. Acute Rheumatic Fever
28. Aortic Stenosis
29. Aortic Regurgitation, Mixed Valvular Heart Disease, and Heart Valve Prostheses
30. Mitral Regurgitation
31. Acquired Tricuspid Valve Diseases

32. Mitral Stenosis

33. Infective Endocarditis

SECTION VI Rhythm and Conduction Abnormalities

34. Electrophysiologic Anatomy, Mechanisms of Arrhythmias and Conduction Disturbances, and Genetics

35. Supraventricular Tachycardia: Atrial Tachycardia, Atrioventricular Nodal Reentry, and Wolff-Parkinson-White Syndrome

36. Atrial Fibrillation and Atrial Flutter

37. Ventricular Arrhythmias and Sudden Cardiac Death

38. Conduction System Disturbances and Bradyarrhythmias

39. Diagnosis and Management of Syncope

SECTION VII Heart Failure

40. Classification of Cardiomyopathies

41. Dilated Cardiomyopathy

42. Hypertrophic Cardiomyopathy

43. Cardiac Amyloidosis

44. Restrictive Heart Diseases

45. Left Ventricular Noncompaction

46. Myocarditis

47. Obstructive and Nonobstructive Coronary Disease in Heart Failure

48. Diagnosis and Management of Chronic Heart Failure

49. Diagnosis and Management of Heart Failure With Preserved Ejection Fraction

50. Evaluation and Management of Acute Heart Failure

51. Peripartum Cardiomyopathy

52. Surgical Management of the Severe Heart Failure Patient: Mechanical Circulatory Support and Heart Transplantation

SECTION VIII Diseases of the Pericardium

53. Acute Pericarditis

54. Pericardial Effusion and Tamponade

55. Constrictive Pericarditis

SECTION IX Cardiopulmonary Disease

56. Diagnosis and Management of Diseases of the Peripheral Venous System

57. Pulmonary Hypertension

58. Pulmonary Embolism

59. Cor Pulmonale: The Heart in Structural Lung Disease

60. Sleep-Disordered Breathing

SECTION X Critical Cardiovascular Care

61. Evolution of Cardiac Critical Care

62. Circulatory and Cardiogenic Shock

63. Sudden Cardiac Death and Resuscitation

64. Postoperative and Postprocedural Care in the Cardiac Intensive Care Unit

SECTION XI Adult Congenital Heart Disease

65. Anatomical and Physiological Classification of Adult Congenital Heart Disease

66. Shunt Lesions

67. Right-Sided Lesions

68. Left Heart Obstructive Lesions

69. Single Ventricle Post Fontan Palliation: Tricuspid Atresia, Pulmonary Atresia, and Hypoplastic Left Heart Syndrome

70. Complex Cyanotic Congenital Heart Disease: The "Mixing" Lesions

71. Psychosocial Profiles in Adult Congenital Heart Disease and Transition to Adulthood

SECTION XII Special Populations and Topics in Cardiovascular Disease

72. Perioperative Evaluation for Noncardiac Surgery

73. Anesthesia and the Patient with Cardiovascular Disease

74. Cardiovascular Disease in Patients With Cancer and Cardiovascular Complications of Cancer Therapies

75. Heart Disease in Chronic Kidney Disease

76. Rheumatologic Disease and the Cardiovascular System

77. Cardiovascular Disease in Patients with HIV

78. Heart Disease in Pregnancy

79. Traumatic Heart Disease

80. Women and Ischemic Heart Disease: An Evolution in Knowledge

81. Race, Ethnicity, Disparities, and Diversity: The Intersection With Heart Disease

82. Cardiovascular Disease and Ageing: Cellular and Molecular Mechanisms

83. Artificial Intelligence and Cardiovascular Care

84. Cardiovascular Manifestations of COVID-19
