	Edición:	1	
	Idioma:	Ingles	
Disponible:	De 7 a 10 Días		
Precio:	114.42 108.70	Iva no incluido	

DESCRIPTION:

After the introduction of minimally invasive surgery in human medicine in the early 1980s, laparoscopic and thoracoscopic surgery slowly started to take hold also in veterinary medicine, especially in dogs and cats. Thanks to its reduced invasiveness and its fast postoperative recovery, minimally invasive surgery started to expand so quickly that nowadays has become the preferred technique for many surgical procedures.

Laparoscopy and Thoracoscopy in the dog and cat is a comprehensive book which aims to describe all the minimally invasive surgical procedures available to date. The description of the various surgical steps is accompanied by a wide iconography, including illustrations of the arrangement of the surgeons in the operating room and the placement of ports to perform laparoscopic or thoracoscopic procedures.

The book is also enriched by personal experiences of international authors who shared procedures still not described in literature, making it a must-have practical book for practitioners as well as experienced surgeons.

The volume also includes videos, available through QR codes on vetminimallyinvasivesurgery.edrapublishing.com, showing the procedures described for a better understanding of the art of veterinary minimally invasive surgery.

CONTENTS:

Section I. GENERAL PRINCIPLES

1. HISTORY OF VETERINARY MINIMALLY INVASIVE SURGERY
2. LOW-IMPACT SURGERY
3. EQUIPMENT FOR MINIMALLY INVASIVE SURGERY
4. OPERATING ROOM AND HYGIENE MEASURES
5. ERGONOMICS IN LAPAROSCOPY AND THORACOSCOPY
6. PRINCIPLES OF TRIANGULATION IN LAPAROSCOPY AND THORACOSCOPY
7. SINGLE-INCISION (SINGLE-PORT) LAPAROSCOPIC TECHNIQUE
8. LAPAROSCOPIC INTRACORPOREAL AND EXTRACORPOREAL SUTURING
9. LEARNING AND ADVANCING MINIMALLY INVASIVE SURGERY SKILLS
10. INDOCYANINE GREEN INITIAL APPLICATIONS OF FLUORESCENCE-GUIDED SURGERY

Section II. LAPAROSCOPY

11. ANESTHESIA IN LAPAROSCOPIC SURGERY
 - 11.1 Hypotension and bradycardia at pneumoperitoneum induction in a female dog
12. PATIENT POSITIONING, ACCESS, PORT PLACEMENT, AND PNEUMOPERITONEUM IN LAPAROSCOPY
13. COMPLICATIONS IN LAPAROSCOPY
14. EXPLORATORY AND DIAGNOSTIC LAPAROSCOPY
 - 14.1 Cisterna chyli ablation
 - 14.2 Laparoscopic intraperitoneal foreign body retrieval (two-port technique)
 - 14.3 Laparoscopic exploration in a cat
 - 14.4 Laparoscopic treatment of hemoabdomen
 - 14.5 Minimally invasive abdominal approach to subcostal foreign body removal
 - 14.6 Laparoscopic repositioning of a ventriculoperitoneal shunt catheter
 - 14.7 Laparoscopic liver biopsy
15. LAPAROSCOPIC OVARIECTOMY
 - 15.1 Ovariectomy by transvaginal total NOTES
 - 15.2 Two-port laparoscopic ovariectomy in the cat
 - 15.3 Laparoscopic ovariectomy in a dog with type III sclerosing encapsulating peritonitis
 - 15.4 Laparoscopic ovariectomy in large- and giant-breed dogs
 - 15.5 Two-port laparoscopic ovariectomy without ovary suspension suture in a female dog
 - 15.6 Laparoscopic ovariectomy in an African lioness (*Panthera leo*) using a single-port multiple-access device
 - 15.7 LESS ovariectomy using a simple handmade access device
16. LAPAROSCOPY FOR OVARIAN REMNANT SYNDROME

- 16.1 Ovarian remnant syndrome after laparoscopic ovariectomy in a cat
- 16.2 Ovarian remnant syndrome in a dog
17. LAPAROSCOPIC OVARIOHYSTERECTOMY
18. LAPAROSCOPIC CRYPTORCHIDECTOMY
 - 18.1 Testicular torsion in a cryptorchid dog
 - 18.2 Laparoscopic cryptorchidectomy
19. LAPAROSCOPIC-ASSISTED CYSTOSCOPY AND PERCUTANEOUS SUPRAPUBIC CYSTOSCOPY
 - 19.1 Percutaneous cystoscopic cystolithotomy in a Yorkshire Terrier
 - 19.2 Laparoscopic-assisted cystostomy in a Chihuahua
20. LAPAROSCOPIC CYSTOTOMY
21. LAPAROSCOPIC CYSTOPEXY
22. LAPAROSCOPIC-ASSISTED VASOPEXY
 - 22.1 Laparoscopic reversible neutering in a dog
23. LAPAROSCOPIC URETERONEPHRECTOMY
 - 23.1 Laparoscopic omentalization of a renal cyst
 - 23.2 Laparoscopic perinephric pseudocyst resection
 - 23.3 Laparoscopic renal cyst deroofing, fulguration, and omentalization
24. CURRENT CONCEPTS IN MINIMALLY INVASIVE NEPHROLITHOTOMY
 - 24.1 Nephron-sparing nephrotomy to remove large uroliths in dogs
 - 24.2 Nephron-sparing nephrotomy for the treatment of Diocetophyme renale parasitosis
25. LAPAROSCOPIC APPROACH TO URETEROLITHIASIS
 - 25.1 Ureterotomy for stone removal
26. LAPAROSCOPIC NEOURETEROCYSTOSTOMY
 - 26.1 Laparoscopy-assisted cutaneous ureterostomy (LACU) in a canine patient with prostatic carcinoma
27. LAPAROSCOPIC ARTIFICIAL URETHRAL SPHINCTER (AUS) IMPLANTATION
28. LAPAROSCOPIC PROSTATECTOMY
29. LAPAROSCOPIC OMENTALIZATION OF PARAPROSTATIC CYSTS
 - 29.1 Omentalization of a prostatic abscess
 - 29.2 Omentalization of a paraprostatic cyst in a dog
30. LAPAROSCOPIC GASTROPEXY AND LAPAROSCOPIC-ASSISTED GASTROPEXY
 - 30.1 Total laparoscopic sutureless gastropexy with absorbable straps in dogs
 - 30.2 Intracorporeally sutured laparoscopic gastropexy using an abdominal wall incision made at right angles to the rotation direction of the suturing needle
 - 30.3 Laparoscopic gastropexy in a dog
 - 30.4 Total laparoscopic gastropexy (two-port technique using Endostitch)
 - 30.5 Treatment of lower esophageal sphincter incompetence in a cat using total laparoscopic gastropexy
31. LAPAROSCOPIC-ASSISTED GASTROTOMY
32. SINGLE-PORT LAPAROSCOPIC-ASSISTED INTESTINAL SURGERY
33. LAPAROSCOPIC-ASSISTED COLOPEXY
 - 33.1 Totally laparoscopic colopexy in a cat
 - 33.2 Laparoscopic colopexy and ovariectomy in a dog
34. LAPAROSCOPIC LIVER SURGERY
 - 34.1 Laparoscopic excisional liver biopsy in a dog
 - 34.2 Laparoscopic excision of a hepatic cyst and omentopexy in a Persian cat
35. LAPAROSCOPIC MICROWAVE ABLATION OF THE LIVER
36. LAPAROSCOPIC CHOLECYSTECTOMY
 - 36.1 Single-port laparoscopic cholecystectomy technique in dogs
 - 36.2 Laparoscopic cholecystectomy and intraoperative bile duct flushing for extrahepatic biliary obstruction in a dog
 - 36.3 Cholecystectomy and bile duct flushing
 - 36.4 Laparoscopic cholecystectomy in a dog using the subserosal layer dissection technique
 - 36.5 Cholecystectomy
 - 36.6 Cholecystectomy by three-port access and "cold" dissection
 - 36.7 Cholecystectomy in a dog
 - 36.8 Laparoscopic cholecystectomy in a dog
 - 36.9 Fundus-first cholecystectomy
37. LAPAROSCOPIC TREATMENT OF EXTRAHEPATIC PORTOSYSTEMIC SHUNT
 - 37.1 Splenocaval shunt
 - 37.2 Laparoscopic attenuation of a splenophrenic shunt in a dog
 - 37.3 Laparoscopic attenuation of a splenocaval shunt in a dog
 - 37.4 Laparoscopic attenuation of a left intrahepatic portosystemic shunt in a cat
 - 37.5 Laparoscopic portosystemic shunt attenuation in a dog
38. LAPAROSCOPIC PANCREATIC SURGERY
 - 38.1 Pancreatectomy in a case of insulinoma
 - 38.2 Laparoscopic right lateral pancreatic lobectomy in a dog
 - 38.3 Laparoscopic omentalization of a pancreatic cyst in a cat
39. LAPAROSCOPIC SPLENECTOMY
 - 39.1 Laparoscopic splenectomy in a small dog
 - 39.2 Splenectomy
 - 39.3 Laparoscopic splenectomy for hemangiosarcoma
40. LAPAROSCOPIC ADRENALECTOMY
 - 40.1 Right laparoscopic adrenalectomy

- 40.2 Laparoscopic right adrenalectomy for adrenal adenocarcinoma in a dog
- 40.3 Right adrenalectomy in a Yorkshire Terrier dog
- 40.4 Left adrenalectomy in a dog
- 40.5 Laparoscopic right adrenalectomy
- 41. LAPAROSCOPIC DIAPHRAGMATIC HERNIORRHAPHY
- 41.1 Diaphragmatic hernia in a cat
- 42. LAPAROSCOPIC HIATAL HERNIORRHAPHY
- 43. LAPAROSCOPIC INGUINAL HERNIORRHAPHY
- 43.1 Laparoscopic-assisted percutaneous herniorrhaphy in dogs using the PIRS technique and laparoscopic ovariectomy
- 43.2 Laparoscopic-assisted percutaneous inguinal herniorrhaphy
- 44. LAPAROSCOPIC PERINEAL HERNIORRHAPHY
- 45. LAPAROSCOPIC PERITONEOPERICARDIAL HERNIORRHAPHY
- 45.1 Laparoscopic treatment of peritoneal- pericardial diaphragmatic hernia in a puppy dog
- 45.2 Laparoscopic repair of pericardial diaphragmatic hernia in a dog

Section III. THORACOSCOPY

- 46. ANESTHESIA IN THORACOSCOPY
- 47. PATIENT POSITIONING, ACCESS, AND PORT PLACEMENT IN THORACOSCOPY
- 48. CONTRAINDICATIONS AND COMPLICATIONS IN THORACOSCOPY
- 49. EXPLORATORY AND DIAGNOSTIC THORACOSCOPY
- 49.1 Thoracoscopy in combination with digestive endoscopy for the diagnosis of intrathoracic neoformations
- 49.2 Gunshot wound to the chest cavity in a dog
- 50. THORACOSCOPIC PERICARDIECTOMY
- 50.1 Two-port thoracoscopic pericardiectomy as a novel technique in flat-chested dogs with reduced thoracic working spaces
- 50.2 Thoracoscopic subphrenic (subtotal) pericardiectomy
- 51. THORACOSCOPIC THORACIC DUCT LIGATION FOR TREATMENT OF CHYLOTHORAX
- 51.1 Bilateral en bloc thoracic duct ligation in combination with pericardiectomy by video-assisted thoracoscopic surgery for idiopathic chylothorax in a dog
- 51.2 Thoracoscopic thoracic duct ligation for idiopathic chylothorax
- 51.3 Thoracic duct ligation and pericardiectomy in a cat with chylothorax
- 51.4 Thoracoscopic thoracic duct ligation and methylene blue coloration of mesenteric lymph nodes to confirm occlusion
- 51.5 Endoscopic-assisted surgery for idiopathic chylothorax in a domestic shorthair cat
- 51.6 Chylothorax associated with a peritoneopericardial diaphragmatic hernia in a dog
- 52. THORACOSCOPIC APPROACH TO THE MANAGEMENT OF PYOTHORAX
- 53. THORACOSCOPIC LUNG LOBECTOMY
- 53.1 Hilar lung lobectomy
- 53.2 Video-assisted thoracoscopic surgery pulmonary lobectomy
- 53.3 Thoracoscopic lung lobectomy for lung lobe torsion
- 53.4 Thoracoscopic lobectomy of the right middle lung lobe in a dog
- 54. THORACOSCOPIC APPROACH TO VASCULAR RING ANOMALIES
- 54.1 Thoracoscopic approach combined with esophagoscopy for the surgical correction of a persistent right aortic arch
- 55. THORACOSCOPIC APPROACH TO MEDIASTINAL MASS EXCISION
- 55.1 Thoracoscopic mediastinal lymph node excision
- 55.2 Thoracoscopic treatment in a cat with thymoma-associated exfoliative dermatitis
- 55.3 Thoracoscopic resection of a cranial mediastinal mass in a dog
- 55.4 Thoracoscopic excision of a mediastinal ectopic thyroid carcinoma
- 56. THORACOSCOPIC AURICULECTOMY
- 56.1 Thoracoscopic right auricular tumor excision using a four-port technique
- 56.2 Surgical variation on auricular mass removal technique
- 57. THORACOSCOPIC FOREIGN BODY REMOVAL
- 58. THORACOSCOPIC PLACEMENT OF EPICARDIAL PACEMAKERS
- 59. THORACOSCOPIC-ASSISTED PLEURAL PORT PLACEMENT
- 59.1 Pleural port implantation for the management of malignant pleural effusion due to metastatic mammary carcinoma in a dog
