

PRINCIPLES OF NEONATOLOGY

	Autor: Maheshwari
	ISBN: 9780323694155
	Páginas: 928
	Año: 2023
	Edición: 1
	Idioma: Ingles
	Disponible: De 7 a 10 Días
Precio: 106.00 100.70	
Iva no incluido	

DESCRIPTION:

Written by leading global experts in the field, Principles of Neonatology provides those on the NICU team with clinically focused, evidence-based guidance in an easy-to-access format. Chapters cover the key topics of greatest and most frequent concern to clinicians treating newborns, delivering current, data-driven management and treatment advice in a single source relevant to the seasoned practitioner, fellow, or trainee.

Key Features:

- A highly templated format makes it easy to find exactly the information you need.
- Lavishly illustrated with photos, radiographs, drawings, and charts and graphs that clarify key concepts in a helpful and accessible way.
- Evidence-based focus ensures that only the most reliable treatment protocols and clear-cut, data-driven guidance are included.
- Coverage of all relevant topics in the NICU: skin lesions, congenital anomalies, architecture/development of neonatal intensive care units, pain control, anesthesia for newborn infants, and much more.
- Ideal for every member of the NICU team: neonatologists, neonatology fellows, residents, and neonatal nurses, as well as all other clinicians working in the NICU, including PAs, occupational therapists, respiratory therapists, and others.
- An eBook version is included with purchase. The eBook allows you to access all of the text, figures and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud.

CONTENTS:**Section 1: Care of the Premature and Critically-III Neonate**

- 1 Design of Neonatal Intensive Care Units
- 2 NICU Environment for Parents and Staff
- 3 Safe Use of Health Information Technology
- 4 Pharmacologic Management of Neonatal Pain and Agitation
- 5 Neonatal Transport
- 6 Radiation Safety in Premature and Critically-III Neonates

Section 2: Neonatal Resuscitation and Respiratory Care

- 7 Placental Transfusion in the Newborn
- 8 Neonatal Resuscitation
- 9 Golden Hour and Thermoregulation
- 10 Oxygen During Postnatal Stabilization
- 11 Respiratory Distress Syndrome
- 12 Invasive and Noninvasive Ventilation Strategies
- 13 Pulmonary Hypertension of the Newborn
- 14 Bronchopulmonary Dysplasia
- 15 Treatment of Apnea of Prematurity

Section 3: Feeding

- 16 Human Milk
- 17 Storage and Use of Human Milk in Neonatal Intensive Care Units
- 18 Possible Benefits and Risks of Using Probiotics in Neonates

Section 4: Nutrition

- 19 Enteral Nutrition
- 20 Parenteral Nutrition in Neonates
- 21 Nutrition in Short Bowel Syndrome
- 22 Neonatal Nutrition Assessment

Section 5: Endocrine Disorders

- 23 Neonatal Hypoglycemia
- 24 Infants of Diabetic Mothers

25 Evidence-Based Neonatology: Neonatal Pituitary Hormone Deficiencies

26 Neonatal Thyroid Disease

27 Hypothalamic-Pituitary-Adrenal Axis in Neonates

28 Disorders of Neonatal Mineral Metabolism and Metabolic Bone Disease

29 Disorders of Sex Development for Neonatologists

Section 6: Infections

30 Early-Onset Sepsis

31 Late-Onset Sepsis

32 Neonatal Herpes Simplex Virus Infections

33 Postnatal Cytomegalovirus Infection Among Preterm Infants

34 Congenital Syphilis

35 Invasive Fungal Infections in the NICU: Candida, Aspergillosis, and Mucormycosis

Section 7: Cardiac Defects and Dysfunction

36 Congenital Heart Defects

37 Cardiac Defects_Anatomy and Physiology

38 Medical and Surgical Management of Critical Congenital Heart Disease

39 Neonatal Arrhythmia and Conduction Abnormalities

40 Pulmonary Hypertension in Chronic Lung Disease

41 Hemodynamic Assessment and Management of a Critically Ill Infant

Section 8: Jaundice, Blood Disorders, and Transfusions

42 A Practical Guide to Evaluating and Treating Severe Neonatal Indirect Hyperbilirubinemia

43 Neonatal Anemia

44 Evidence-Based Neonatal Transfusion Guidelines

45 Neonatal Thrombocytopenia

Section 9: Neurological Disorders

46 Management of Hypoxic-Ischemic Encephalopathy Using Therapeutic Hypothermia

47 Management of Hypoxic-Ischemic Encephalopathy Using Measures Other Than Therapeutic Hypothermia

48 Management of Encephalopathy of Prematurity

49 Neonatal Seizures

50 Stroke in Neonates

51 Using Biomarkers for Management of Perinatal Brain Injury

52 Intraventricular Hemorrhage and Posthemorrhage Hydrocephalus
