<b>Precio:</b>	<del>62.50</del> 59.38	Iva no incluido	

**CONTENTS:**

1. Impact of structural modifications on the hydrocortisone.
2. Pharmacokinetics and metabolism of deflazacort,
3. Glucocorticoids, glucose metabolism and hypothalamic-pituitary adrenal axis.
4. Deflazacort versus prednisone doabetogenic effect evaluated by glucose clamp and compartmental analysis.
5. The role of glucocorticoids in muscle metabolism.
6. Glucocorticoids and collagen diseases.
7. The cutaneous effects of glucocorticoids.
8. Effects of chronic corticosteroid therapy on mineral metabolism and calcium absorption.
9. Glucocorticoid and intestinal absorption of calcium and phosphate.
10. Deflazacort and skeletal, phosphate and glucose metabolism in monkeys.
11. The effects of glucocorticoids on bone cell metabolism and function.
12. Glucocorticoid and bone resorption.
13. Glucocorticoid and bone matrix formation.
14. Comparison of the effects of cortisone acetate on calcification, ossification, and resorption of fetal mice long bones.
15. In vitro evidence of the calcium-sparing effect.
16. Radiologic aspects of glucocorticoid-induced bone disease.
17. Bone histomorphometry in corticosteroid-induced osteoporosis and cushing's syndrome.
18. Bone mineral in lumbar spine, femoral neck and femoral shaft measured by dual photon absorptiometry with <sup>153</sup>-gadolinium in prednisone treatment.
19. The effect of low dosage glucocorticoids on bone mass in rheumatoid arthritis.
20. Clinical equivalence of a new glucocorticoid, deflazacort and prednisone.
21. Involvement of glucocorticoids in cartilage growth and metabolism.
22. Effects of glucocorticoid treatment on the ultrastructure of cartilage and bone.
23. Effects of glucocorticoid and anabolic steroids on cells derived from human skeletal and articular tissues in vitro.
24. The glucocorticoid withdrawal syndrome,
25. Methods for reducing undesirable side effects of glucocorticoids.
26. In vivo binding to thymic glucocorticoid receptors.
27. In vivo and ex vitro effects of different corticosteroids on polymorphonuclear leukocyte functions.
28. Effect of single oral doses of prednisone and deflazacort on human lymphocyte distribution and functions.
29. Effects of high doses of glucocorticoids on t-cell subsets in renal transplantation.
30. Glucocorticoids and renal transplant osteonecrosis.
31. Glucocorticoids and avascular bone necrosis in renal transplantation.
32. Glucocorticoids and hypercalcemia.
33. Effects of glucocorticoids on calcium and phosphate excretion.
34. Effects of deflazacort on the renal handling of radiocalcium in man.
35. Acute changes in urinary radiocalcium following glucocorticoids administration in man.
