DESCRIPTION:

Developed at Philadelphia's world-renowned Wills Eye Hospital, the Color Atlas and Synopsis of Clinical Ophthalmology series covers the most clinically relevant aspects of ophthalmology in a highly visual, easy-to-use format. Vibrant, full-color photos and a consistent outline structure present a succinct, high-yield approach to the seven topics covered by this popular series: Cornea, Retina, Glaucoma, Oculoplastics, Neuro-Ophthalmology, Pediatrics, and Uveitis. This in-depth, focused approach makes each volume an excellent companion to the larger Wills Eye Manual as well as a practical stand-alone reference for students, residents, and practitioners in every area of ophthalmology.

The updated Glaucoma volume includes:

- Authoritative information on the diagnosis and management of glaucoma, ideal for practicing ophthalmologists, glaucoma specialists, and those in training
- More than 350 high-quality photographs covering the newest diagnostic techniques, including anterior segment imaging, as well as the latest in therapeutic procedures and technology
- An easy-to-use format that covers Epidemiology and Etiology, History, Physical Examination, Differential Diagnosis, Laboratory and Special Examinations, Diagnosis, Prognosis, and Management

Enrich Your eBook Reading Experience:

- Read directly on your preferred device(s), such as computer, tablet, or smartphone.
- Easily convert to audiobook, powering your content with natural language text-to-speech.
