DESCRIPTION:

A new volume in the popular Washington Manual® handbook series, The Washington Manual® Heart Failure and Transplantation provides concise, high-yield content that reflects today's fast-changing advances in the field. Edited by Drs. Jonathan D. Moreno and Benjamin J. Kopecky, and written by teams from Washington University, this practical handbook focuses on the essential information you need to know, using a brief, bulleted format, along with numerous figures, tables, algorithms, and images throughout. In one convenient, portable resource, you'll find complete coverage of heart failure pathophysiology and clinical management spanning both inpatient and outpatient treatment settings—all at your fingertips for quick review and reference.

- Provides a high-level, accessible overview of the entire field of heart failure and transplantation, linking current practice with primary evidence throughout, and including recommendations for further reading
- Includes key points in each chapter, as well as tables that chronologically summarize landmark clinical trials - Selected chapters include real-world clinical case vignettes
- Shares the experience and knowledge of Washington University faculty physicians and fellows in cardiology, internal medicine, surgery, pharmacy, and other related fields
- An ideal reference to meet the daily needs of cardiology and heart failure fellows, general cardiologists, internal medicine residents on heart failure rotations, and APRNs
- The Washington Manual® is a registered mark belonging to Washington University in St. Louis to which international legal protection applies. The mark is used in this publication by Wolters Kluwer Health under license from Washington University.

Enrich your eBook reading experience:

- Read directly on your preferred device(s), such as computer, tablet, or smartphone.
- Easily convert to audiobook, powering your content with natural language text-to-speech.
