DESCRIPTION:

This text fills the gap between medical specialties in this topic, covering the dermatological diseases appearing during or affected by pregnancy it also looks at safe drug usage and the cosmetic and aesthetic concerns of the pregnant woman. Most of the conditions discussed require a combined approach and treatment by the dermatologist and gynecologist and obstetrician, and this text establishes a united therapeutic approach for all practitioners.

- Fills the gap between the various specialties involved in managing skin diseases in pregnant patients
- Offers a unified approach for all health professionals managing pregnant patients
- Presents a practical and detailed clinical resource
