Precio: 156.00 148.20 Iva no incluido	

DESCRIPTION:

Written by internationally renowned experts, this book is the newest volume in the Clinical Ophthalmic Oncology book series. This book, in addition to the other six volumes provides detailed practical guidance and advice on the diagnosis and management of the complete range of ocular cancers. Supplying the reader with state-of-the-art knowledge required in order to identify these cancers early and to treat them as effectively as possible, this book covers Eyelid Tumors. The information presented enables readers to provide effective patient care using the latest knowledge on ophthalmic oncology and to verify diagnostic conclusions based on comparison with numerous full-color clinical photographs from the authors' private collections, histopathologic microphotographs, imaging studies, and crisp illustrations.

Clinical Ophthalmic Oncology's clinically focused and user-friendly format allows for rapid retrieval of information in daily practice and is written for residents, fellows, and any physician involved in the care of patients with ocular or orbital malignancies. Additionally, this edition includes several hundred new images and videos to improve comprehension of procedures and techniques. This volume discusses everything from the differential diagnosis and evaluation to imaging and management of eyelid tumors.
